

Public Notice

East Manchester Township is sharing this precautionary notice to help residents, property owners, businesses, and all members of the public recognize and avoid fraudulent emails, text messages, links, attachments, and online requests.

Thankfully, East Manchester Township has not experienced or received a report of an incident. This notice is being issued as a preventive reminder. Fraudulent messages can closely resemble official Township correspondence and may use the names of Township employees or officials, logos, familiar wording, or similar formatting to appear legitimate.

Please stop and verify before clicking anything. Before selecting a link, opening an attachment, responding to a message, providing personal or financial information, or making a payment, take the following precautions:

- Carefully check the sender's full email address and watch for misspellings, unusual domains, or other inconsistencies.
- Pause before clicking links or opening attachments, especially when a message is unexpected or creates a sense of urgency.
- **East Manchester Township will never ask you to provide personal, account, or financial information.** Do not send payment or share such information in response to an unexpected or suspicious message.
- If you are unsure whether a communication is legitimate, contact East Manchester Township directly using contact information you already know or obtain independently from the Township's official website—not the phone number or link in the message.

Please remain cautious and report any suspicious communication that claims to be from East Manchester Township, a Township board or commission, or a Township employee. Your attention and vigilance can help prevent fraud before it occurs.

If you have questions or would like to verify a Township communication, please contact the Township office directly through its official contact information, 717-266-4279 or emantwp@emanchestertwp.com.

Thank you for helping keep our community informed and protected.
