## GOYORK 2045, the METROPOLITAN TRANSPORTATION PLAN

### The Transportation Component of the York County Comprehensive Plan

The Transportation department within the York County Planning Commission (YCPC) has completed GOYORK 2045, the Metropolitan Transportation Plan (MTP) for York County, as part of the York County Comprehensive Plan. This document seeks to provide direction for planning in the years 2021 through 2045.

York County includes a diverse population with various needs. The MTP is an effort to identify and meet those needs for Transportation. This document is an overview of the current state of York County, including the performance measures that are tracked yearly, the current plans in place, and maps detailing aspects of the various systems within the county. Actions adopted by the York Area Metropolitan Planning Organization (YAMPO) are included in the "Moving... *Forward*" sections throughout Chapter 3. Working together with YCPC, rabbittransit, PennDOT, and municipalities, we hope this plan will help you and your neighbors live a better life, however YOU define better.

GOYORK 2045 also offers a glance at the financial side of transportation within the county, including the Capital Improvement Plan (CIP) document. Funding revenues and projections are outlined, accounting for inflation and maintenance needs.

There will be **two virtual open-house meetings on May 11th and 20th**, and a YAMPO Technical Committee meeting on June 3rd to voice comments on the plan. Everyone is welcome to weigh in on topics and have one-on-one conversations with the Transportation Planners. View the document at [GOYORK2045.com](http://GOYORK2045.com) and see what the future looks like for transportation in York County.

Which congested intersections in York County should be improved? Take the survey to rank actions identified in GOYORK 2045 and select your top three intersections by completing the survey at [www.GOYORK2045.com](http://www.GOYORK2045.com)
