

Saving Lives Through Innovative Policy

A CONVERSATION ABOUT COMMUNITY CATS

Join us for a conversation dedicated to one of our most controversial topics - saving community cats.

In 2020, the York County SPCA implemented an innovative new life-saving policy for these animals. We're excited to welcome Aubrey Lodato, Senior Strategist with Best Friends Animal Society, a national leading animal advocacy group, to discuss the impact of this policy, the challenges we've faced in its implementation, and how you can help us move forward.

THURSDAY, SEPTEMBER 15 • 5 - 7pm

Bill Simpson room in Martin Library

Light refreshments will be served.

This event is open to the public.

We hope to hear from our community, please come with questions and feedback.
